

Klaxoon

Sector Professional collaboration tools

Creation 2015

Founder

Matthieu Beucher

Headcount & offices

300 employees in France (Rennes HQ), US & Singapore

Funding

€48 M in total

Clients

5,000 organizations globally

Klaxoon develops collaborative solutions for efficient, creative and inclusive teamwork, remotely or in the office. Its tools are used every day for every moment of teamwork: team synchronization, planning, workshops, project management, and more.

The mission

To thrive in teamwork by unleashing individual and collective potential. Klaxoon creates the environment and tools that enable **millions of users in 120 countries** to collaborate efficiently, creatively and inclusively.

Their pride

Klaxoon received the **Microsoft Partner Award 2020** in the "App and Solutions for Microsoft Teams" category, awarded by Microsoft Corporate Worldwide.

Since 2018, the Microsoft R&D team in Seattle and Klaxoon team in Rennes have been working together to better connect their tools. It goes to show that we can change the way teams work around the world all the way from France.

Key numbers

100% of CAC 40

are clients and 15% of Fortune 500

90% less emails

and almost 100% of attendance

28 tCO2 saved

during a 10-people workshop between teams in Asia and Europe

Board tool: 1000x

less energy intensive than videoconferencing

F/M ratio
40-60%

**Best
Impact
Practice**

Impact is at the heart of our mission to provide the proper environment and the tools for smarter, responsible and inclusive group work. The question around energy consumption is central: our Board tool encourages time-optimized meetings - with an average duration divided by 3, and video streaming consuming 5-10x less bandwidth than traditional tools. Klaxoon also limits the need for emails, downloads, and trips, thereby reducing the carbon footprint of day-to-day work. **Matthieu Beucher, Founder.**
